Ground Granulated Blastfurnace Slag Pro				oduced at	Scunthorpe		Works
				ole Period	Februai	ry 2019	
Certificate of Conformity of GGBS to EN 15167-1:2006				Certificate of Conformity of Combinations of GGBS and CEM I Portland Cement to			
Spot samples of GGBS were taken and tested to determine conformity to the autocontrol requirements of EN 15167-1:2006 "Ground granulated blastfurnace slag for use in concrete, mortar and grout" following the methods given in that standard. The values			Annex A of BS 8500-2:2015 Portland Cement Source: Brevik				
reported are mean values for the monthly production period.				For combinations of GGBS supplied from the above			
Scunthorpe GG			works with the above CEM I Portland cement the permitted				
Results		Product	EN Limit	proportions conforming to the requirements given in annex A of BS 8500-2:2015 are:		s given in	
Fineness m ² /kg		516	min. 275	aillex A of D3 0000-2.2010 are.
