

Product data sheet

Calcified Lime+

Calcified Lime+ is a high specification granulated calcium and trace element soil conditioner. Calcified Lime+ is used in the agricultural industry for any crop situations requiring calcium and trace elements. Calcified Lime+ is an EC Fertiliser – Liming Material which exceeds the specification under Section G.1 No. 1(b) Limestone – Fine Quality, of Regulation (EC) No 2003/2003 of the European Parliament and of the Council.

Chemical analysis	% by weight
Total Calcium	Ca 39.3, CaO 55
Total Magnesium	Mg <0.5, MgO <0.5

Physical properties	
Neutralising Value (as CaO)	54
Moisture content	< 0.5%
Reactivity (HCl)	97%

Grading (after breakdown of granules in water)	% by weight
Fineness to pass through a 2mm sieve	100
Fineness to pass through a 1mm sieve	100
Fineness to pass through a 0.315mm sieve	99
Fineness to pass through a 0.1mm sieve	88

Calcified Lime+ includes humates and bio-stimulants derived from green seaweed extracts, supplying both humic and fulvic acids.
